[Intro - Tab]

[Primeira Parte]

Dear Sirs

To whom is may concern

Theres facts I'd like to learn

So many things I wanna know

Especially trivial info paraphernalia

Badges and regalia please send me everything

Cause I

Am interested in you

And everything you do

I find myself at all your shows

Could you tell me were you buy your clothes

Could you sign my sisters face

Put your signature any place and please send me a bio

[Refrão]

Cause we've got fan mail

We really really read it

Fan Mail

We really really read it

I sent you my letter now I want a reply

You don't know any better than you won't take your time

With my Fan Mail

[Segunda Parte]

So I would like to know just if and when

You'll be in town again

So that I could meet with you

And brag at my friends at school

Have you been all around the world

Have you seen every kinda of girl

Or are you from the other side

Cause you

You can't believe everything that you read

With the hypocrisy and the greed

The papers all the things that they say

They don't tell me anything anyway

That's why I've gotta get it straight from you

What a situation

Without an obligation

[Terceira Parte]

What's this I find to my surprise

Those fans that I idolized

No longer seem to exist

Now tell me what can be the cause of this

Perhaps it could be their egos

I tell you heaven only knows

I didn't even get a newsletter
