

## Norah Jones - December

Tom: E

December, come to me

I hope I can see

You're not just in dreams

I will let you be

Why can't you believe

How much you really mean?

December, won't you come

Back with snow, even sun?

Don't say that it's done

I will carry you home

Take you from the loneliest place

You have known

I will carry you home

Take me from the loneliest place

I have known

## Acordes
