

Nothing But Thieves - Particles

```
Tom: D
                                                             Day by day
                                                             D Em Bm D
                                               A D
                                                                                Fm
                                                             Baby, tell me if I'm being strange
 It's been like a year since I've been home
                                                                 D Em
                                                             And if I need to rearrange
Flirting with an addiction I can't shake off
                                                              D
My mouth is dry, I self medicate
                                                             My particles
This comedown won't cure itself
                                                             I will for you
           Α
It's driving you away
                                                             Oh, doctor please
It's driving you away
                                                             This don't feel right
Piece by piece
                                                             Oh, can't you give me something
A
Day by day
                                                             To get me through the night?
D Em Bm D
Baby, tell me if I'm being strange

D
Em
Bm
                                                             If it all falls apart
And if I need to rearrange
                                                             And if this thing goes wrong
My particles
                                                             Oh put me back together
   G
I will for you
                                                             However you want
       D
                                                             My mind plays tricks
My particles
                                                             And I don't sleep no more
I will for you
                                                              Bm A
                                                             Oh doctor please
 And I'm a shadow of a ghost
                                                              Bm D G
                                                             I can't switch off
It's feeling as if somebody has taken host
                                                             D Fm Bm D
                                                                                 Fm
                                                             Baby, tell me if I'm being strange
D Em Bm
Babe, I don't wanna make a scene
But I get self-destructive
                                                             And if I need to rearrange
                                                               D Em
          A G
It's driving you away
                                                             My particles
                                                             I will for you
D Em
It's driving you away
Piece by piece
                                                             My particles
```

I will for you
