Now United - Good Intentions

```
                         tom:
                  D
             G
I know i could home
A little to late
D
Waking you up

Making you wait
A           B
It?s true, true
G
And all of?your?friends say

I?m?a fool
                   D
Maybe they?re right, but

They?don?t know you
        A     B
Like i do, do
        G               D
Baby, I?ll never gonna give you up
                         A
Never gonna let you down
                    B     A
Even when it gets you down
G                       D
Baby, I swear I?m gonna make it up
```

```
                        A
Never gonna let you down, down
B              A           G
Nothing?s gonna stop us if you want me

Call me
D
Trust me

Just me

Jump with me

A
And I-I'm gonna set in my lesson
      B        A
I got nothing but good intentions
G
Call me

Want me
D
Trust me, baby, you?re the one for me
A
And I-I'm gonna set it in my lesson
      B           A
I got nothing but good intentions

Good intentions

Got nothing but good intentions
