

# Now United - Like that

Tom: **D**

I like the way that you're beautiful **Em A**  
 But you don't act like it **D**  
 With your friends, when you speak your phone **Em A**  
 They love the way we fit **D**  
**B** Oh, oh, oh  
 You're so far out of my league **Em A**  
 But we click so easy like A-B-C **D Bm** (oh, oh)  
 And I hope that you and me **Em A**  
 Will never change **D**

'Cause I like it, like it, like it, like that **Em A**  
 When I met you, knew that you were my last **D**  
 Say my sweater fits you better, why's that? **Em A**  
 'Cause you like it, like it, like it, like that **D**  
 Oh, your favorite place to sit is my lap **B Em**  
 Anywhere you go, you make it high class **A**  
 Say I love you, always say it right back **Em A**  
 'Cause I like it, like it, like it, like that **D**

You kinda shy, but when we're alone **Em A**  
 You're the funny one **D**  
 People starin' at you head to toe **Em A**  
**D B**

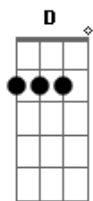

But I ain't worried, nuh-uh, no, oh, oh, oh

Oh, you're so far out of my league (yes, you are) **Em A**  
 But we click so easy like A-B-C (oh, oh) **D**  
 And I hope that you and me never change **Em A**  
 Stay the same **D**

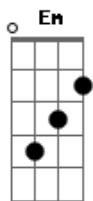

'Cause I like it, like it, like it, like that **Em A**  
 When I met you, knew that you were my last **D**  
 Say your sweater fits you better, why's that? **Em A**  
 'Cause you like it, like it, like it, like that **D**  
 Oh, your favorite place to sit is your lap **B Em**  
 Anywhere you go, you make it high class **A**  
 Say I love you, always say it right back **D**  
 'Cause I like it, like it, like it, like that **B**

'Cause I like it, like it, like it, like that **Em A**  
 When I met you, knew that you were my last **D**  
 Say your sweater fits you better, why's that? **Em A**  
 'Cause you like it, like it, like it, like that **D**  
 Oh, your favorite place to sit is your lap **B Em**  
 Anywhere you go, you make it high class **A**  
 Say I love you, always say it right back **D**  
 'Cause I like it, like it, like it, like that **D**  
 'Cause I like it like that **D**
