## **Oasis - To Be Where There's Life**

Tom: D Intro: [Bass Riff]

Verse 1: D Day's turning to night Pray for the light A Let me come through D Let me take you away over the line

Everyone falling Everyone falling Dreamers come crawling Neighbours jump walling Let me come through Let me take you away over the line

Verse 2: And we're away to be where there's life Shake the will to comply Fears don't try me

## Acordes

Tears don't cry me And we're away to be where there's life

When we come call out Everything's sold out TV just closed down There's nothing on the news now Fears don't try me Tears don't cry me We're away to be where there's life Be where there's life

Verse 3: Dig out your soul, cos here we go We gotta move, it's what we do Let me come through Let me take you away to be where there's life To be where there's life

Take you over the light Under the signs In through locked doors to secret floors Where we've lost 'em before
