

Oasis - Waiting For The Rapture

Tom: C

I still don't know what I was waiting for
A big love to fall down from the sky
She took my hand and picked me up off the floor
She put an apple in my eye
(Refrão)
I said "I'm tired
Come get me off the merry-go-round"
I'm wired
Come feed me
And then bring me down
She come up to me
I can't remember what she said
Cos I was in a trance and I forgot it all

Banging on about all the revolution in her head
She make her lover seem so magical
(refrão)
She said "I'm tired
Come get me off the merry-go-round"
I'm wired
Well heaven must have sent you
To save me for the rapture
(Solo) -
I said "I'm tired
Come get me off the merry-go-round"
I'm wired
Come feed me
And then bring me down
