It's hard letting go
                                                          A thousand silhouettes dancing on my chest

I'm finally at peace, but it feels wrong
                                                          No matter where I sleep, you are haunting me
