Capostraste na 4ª casa
Capostraste na 4ª casa
Intro: 2x: G C G Gb
               The lights go out, I am all alone
              All the trees outside are buried in the snow
              I spend my night dancing with my own shadow % \left( 1\right) =\left( 1\right) \left( 1\right) \left(
And it holds me and it never lets me go
I move slow and steady
                                             Em
But I feel like a waterfall
                                                           G
Yeah, I move slow and steady
                                                                     Em
Past the ones that I used to know
G C G Gb (x2)
              My dear old friend, take me for a spin
               Two wolves in the dark, running in the wind
                                                                                                                                                                                                                                                                                                                                Gb
              I'm letting go, but I've never felt better
                                                                                                                                                                                                                                                                            G
               Passing by all the monsters in my head
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      G C Em Am (x6)
I move slow and steady
```

Em Am But I feel like a waterfall G C
Yeah, I move slow and steady Em Am
Past the ones that I used to know
G C And I'm never ready G Gb 'Cause I know, I know, I know G C That time won't let me G Em Am Show what I want to show
G C Em Am (x2)
G C I move slow and steady Em Am But I feel like a waterfall G C Yeah, I move slow and steady Em Am Past the ones that I used to know
G C And I'm never ready G Gb 'Cause I know, I know, I know G C That time won't let me G Em Am Show what I want to show G C Em Am (x6)
