We bite our tongue

We set the fire

                                                          I know that it's a waste of time
It's warm, the skin I'm living in
                                                          Chasing in the dark
   Am Em
It creates and shapes what is within
                                                          But keep me in your clouded minds
    Am G

So please look away, don't look at me
