Intro: Em G
Em G
Stop, You're cold against the skin
Em G
You take me in your arms when walls are closing in
Em G
And I run, I run, I run, awakening my heart
Em G
But you overwhelm my lungs, It's tearing me a-part
D
You and I will not be shaken!
C G
By the winter sound
D
But my voice is suffocating
C G
In the winter sound
```

```
Em G
Stop, I will take control
Em G
Bend the metal in-to shapes that I, know
Em G
And I run, I run, further than before
Em G
I shake away the skin to saturate my, soul
D
You and I will not be shaken!
C G
By the winter sound
D
But my voice is suffocating
C G
```
