

Of Monsters and Men - Your Bones

Tom: Bb

(com acordes na forma de Capotraste na 3ª casa

In the spring we made a boat

Out of feathers, out of bones

We set fire to our homes,

Walking barefoot in the snow

Distant rhythm of the drum

As we drifted towards the storm

Baby lion lost his teeth,

Now they're swimming in the sea

Troubled spirits on my chest

Where they laid to rest

The birds all left my tall friend,

As your body hit the sand

Million stars up in the sky

Formed a tigers eye

That looked down on my face,

Out of time and out of place

So hold on,

Hold on to what we are,

G)

Hold on to your heart

La la la...

La la la...

Awaken by the sound

of a screaming owl

Chasing leafs in the wind,

Going where we've never been

Said goodbye to you my friend,

As the fire spread

All that's left are your bones

That will soon sink like stones

So hold on,

Hold on to what we are,

Hold on to your heart

La la la...

La la la...

So hold on,

Hold on to your heart

Acordes
