anyway

If we don't make it alive

D

C

All our light that shines strong

D G  
Only lasts for so long

G D  
And it's ashes to ashes again

Em

(Seguem as notas do verso)

The banner you're waving  
Is burning and red

It's blocking the sunlight  
That shines overhead

You against the world  
Diamonds and pearls

Voices inside you churn  
Watch the city burn

Your own liberation  
Will leave them behind

All the slings and arrows  
That rain on your mind

Don't make it better  
Break it cause

It never mattered anyway
