Guitarra 2 - Intro:[ (Gb A E )2x  Gb A B D E  ]2x

Gb                                    A
    There was a time, looking through myself
        E         Gb
Wanting to pretend
                       A
If I escaped, I could fill myself
     E               Gb
I don't think you can
                     A
Been far and wide
         E
But that hole inside
                 Gb
Never really leaves
                       A
When I went away, what I really left
              E           (B Db D Db E )
Left behind was me
E
It's telling me
(B Db D Db E ) E
To be on my way home

       Gb              A       E
    ooo,ooo     Million miles away
  Gb              A        E
    ooo,ooo     Million miles away
       Gb     A          B
     I can't stay   I can't stay
               D       E         Gb
     ooo,ooo     Million miles away

(Gb A E )

Gb                              A
   Each passing day, every passing face
```

```
         E                 Gb
Seems like such a blur

I long to be
            A
Home, silently
E                  Gb
Lying next to her
                              A
Just to get back, by her side is all
       E          Gb
All I need to be

Cause I went away
            A
But what I really left
E                       (B Db D Db E )
Left behind was me
E
I need to be
(B Db D Db E )          E
Getting on my way home

  Gb           A       E
    ooo,ooo     Million miles away
 Gb           A       E
    ooo,ooo     Million miles away
      Gb    A          B
     I can't stay   I can't stay
               D        E        Gb
    ooo,ooo     Million miles away

Solo: (Gb A E )4x  (B Db D Db E )
E
I need to be
        (B Db D Db E )          E
Getting on my way home
Gb                           A        E
  I can't stay   I can't stay   Million miles away
Gb                              A       E
   I can't stay   I can't stay   Million miles away
Gb                           A       E
  I can't stay   I can't stay   Million miles away
Gb                              A       E
   I can't stay   I can't stay   Million miles away
```
