

Ok John - Take It

tom:

Intro: **Gb** **A** **B** **Db**
Gb **A** **B** **Db**

Can't see through her future
 But I see through her eyes

They tell me her secrets
 And all her desires

Stay on the hallway
 You are blocking my view

She could be staring
 And I missed the thrill
Gbm Don't waste time just get her started
Gbm She'll not wait till you get high

Do you have a partner
 Or are just a tease

Cause I have intentions
 And I brought them with me

I could be asking
 About your routine

If you go to college but I won't make a scene
 (Cause I just wanna)

Have your body and leave this party

Makes no difference where your heart is

Take it
 Take it
 Take it

And as your show was done
 I ran and lied

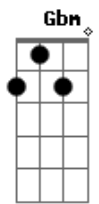

But it was not too long
 Until you found me

And I was wrong

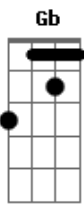

You should come come again

(**Gb** **A** **B** **Db**)
