Olivia Rodrigo - Enough For You

```
                          tom:
                    G

              [Primeira Parte]

G              Em              C
   I wore makeup when we dated
                            G
Cuz I thought you'd like me more
            Em               C
If I looked like the other prom queens
                          G
I know that you loved before
          Em             C
Tried so hard to be everything that you liked
     G            Em
Just for you to say you're not
      C
The compliment type

[Pré-Refrão]

G              Em              C
   And I knew how you took your coffee
                             G
And your favorite songs by heart
       Em           C
I read all of your self-help books
                          G
So you'd think that I was smart
         Em             C
Stupid, emotional, obsessive little me
G              Em
   I knew from the start
          C
This is exactly how you'd leave

[Refrão]

                G           Em
You found someone more exciting
          C              G
The next second you were gone
G                    Em
   And you left me there crying
      C              G
Wondering what I did wrong
                 G             Em
And you always say I'm never satisfied
      C                 G
But I don't think that's true
      G            Em
Cuz all I ever wanted was
        C           G
To be enough for you
          G            Em
Yeah, all I ever wanted was
      C              G
To be enough for you

[Segunda Parte]

G              Em              C
   And maybe I'm just not as interesting
                          G
As the girls you had before
             Em                  C
But God you couldn't have cared less about
                          G
Someone who loved you more
                     Em
```

```
I'd say you broke my heart
                   C
But you broke much more than that
    G                        Em
Now, I don't want your sympathy
                   C
I just want myself back
[Refrão]

                    G           Em
Before you found someone more exciting
          C              G
The next second you were gone
G                    Em
   And you left me there crying
      C              G
Wondering what I did wrong
                 G             Em
And you always say I'm never satisfied
      C                 G
But I don't think that's true
      G            Em            C
Cuz all I ever wanted was to be enough

[Ponte]

              G              Em
And don't you think I loved you too much
          C          G
To be used and discarded
              G              Em
Don't you think I loved you too much
          C          G
To think I deserve nothing
          G                  Em
But don't tell me you're sorry, boy
          C          G
Feel sorry for yourself
          G                  Em
Cuz someday, I'll be everything
          C
To somebody else

[Terceira Parte]

                        G          Em
And they'll think that I am so exciting
C          G              Em
   And you'll be the one who's crying
C             G              Em
   Yeah, you always say I'm never satisfied
          C                 G
But I don't think that's true
          G              Em
You say I'm never satisfied
          C              G
But that's not me, it's you

         G           Em            C
Cuz all I ever wanted was to be enough
          G             Em
But I don't think anything
          C
Could ever be enough
      G   Em  C
For you
              G   Em  C
Enough for you
                          G
No, nothing's enough for you
```

Acordes
