

Olivia Rodrigo - What's Wrong With Me

tom: Gb (forma dos acordes no tom de C) Capotraste na 6ª casa [Intro] C Am Dm G

[Primeira Parte]

C
I'm just
Staring at the ceiling Am
Can't describe this feeling Dm
I've got in my head
G
I'm out of body in my bed
C
And I'm just
Searching up my symptoms Am
Desperate to fix 'em, I'll do anything Dm
'Cause lately I've been spiraling, oh G
F
I'm not feeling like myself and
G
Nothing ever seems to help

[Refrão]

C
Went to the doctor
And she said I was fine
But every movie that
I see makes me cry
Am
It's like somebody
Put a weight on my chest
I should talk to a friend
But I can't get out of bed G C Dm
My head is spinning
And my stomach is sick
Say I'm in love
So it's hard to admit
G
I can't eat, I can't sleep
I think you're what's wrong with me

[Solo] C Am Dm G

[Segunda Parte]

C
I keep
Looking for distractions Am
Hope the feeling passes Dm
But I've got to say G
It's getting harder every day
C
And I can't
Am
Seem to get around it

Head just keeps on Dm
Pounding with the simple thought G
What if this isn't what I want?

[Refrão]

C
Went to the doctor
Tried meditation
With a bottle of wine
Am
It's like somebody
Put a weight on my chest
I should talk to a friend
But I can't get out of bed G C Dm
