

# Olivver The Kid - BBBlue

Tom: C

I thought that I warned you about the woods:  
 The pain they caused me, the life it took  
 But, here you are now centered & stark  
 The sun shines through & lights you up  
 But, just as it makes you warm & makes you feel special  
 It also drains you red just like the devils  
 I'm green just like the woods  
 You're blue just like the ocean  
 Your colors drown mine out in one fluid motion  
 I don't want to be the one who corrupted you  
 Not you, my baby blue  
 Another devil on my back  
 The straw that will blow my stack  
 I know that you're weary of me, careful of me  
 You don't have to be afraid of me, scared of me  
 I know that you care for me, now  
 & I'm here for you  
 I know that you're weary of me, careful of me  
 You don't have to be afraid of me, scared of me  
 I never tried to corrupt you  
 Oh no, not again

It claimed another  
 First it was my friends & now it's my lover  
 I'll burn these fucking woods  
 I'll start the God damn fire  
 Just to try and save you from the wolves that got you dire  
 I don't want to be the one who corrupted you  
 Not you, my baby blue  
 Another devil on my back  
 The straw that will blow my stack  
 I know that you're weary of me, careful of me  
 You don't have to be afraid of me, scared of me  
 I know that you care for me, now  
 & I'm here for you  
 I know that you're weary of me, careful of me  
 You don't have to be afraid of me, scared of me  
 I never tried to corrupt you  
 Well, I guess that I was the one who corrupted you  
 & I guess that I have to come running back in  
 I'm gonna burn it down  
 I'm gonna burn it down  
 I'm coming in
