

Omri - Save Me

tom:

Am

Save me

You should never break me

You're the thing that makes me

Be afraid of myself

Don't tell me you're sorry

Just say a thing to stop me

Help me break the silence

Come and save me from myself

Am G

Do me away

It's easy when you

F G

Give the right excuse

Am G

But when you stay

Dm

You keep me interlaced

F G

With your disuse

Am

Save me

You should never break me

You're the thing that makes me

F G

Be afraid of myself

Am

Don't tell me you're sorry

G

Just say a thing to stop me

Dm

Help me break the silence

F G

Come and save me from myself

(Am G Dm F G)

(Am G Dm F G)

Sometime's it's hard to see the simple truth

That's in front of you

You say to yourself over and over again

That you're doing the right thing

But what if the right thing is following

That feeling you have in your gut

Even if it means losing someone you love

Am G Dm

Give me a way to reach inside

F G

And find the piece of truth

Am G

As I decay

Dm F G

I lose the part of me that wants to fight

Am

Save me

G

You should never break me

Dm

You're the thing that makes me

F G

Be afraid of myself

Am

Don't tell me you're sorry

G

Just say a thing to stop me

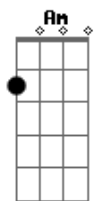

Dm

Help me break the silence

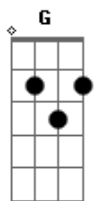

F G

Come and save me from myself
