Feels like this could be forever tonight,
Break these clocks, forget about time,

There could be a world or three going on outside.

You and me were raised in the same part of town,
                                                                and I say,

Got these scars on the same ground,
Remember how we used to kick around just wasting time?
