

## One Direction - Don't Forget Where You Belong

```
Don't forget where you belong, home
Intro: G Em C (x2)
                                                                                      G
                                                               Don't forget where you belong, home
Verse 1:
                                                                               Em D
                                                               If you ever feel alone, don't
Been a lot of places
                                                               You were never on your own
             Fm
                                                              And the proof is in this song
I've been all around the world
                                                              Bridge:
Seen a lot of faces
            Em
Never knowing where I was
                                                                Lights off when they should be on
On the horizon
                                                                Even stars in the sky they're wrong
    Em
But I know, I know, I know, I know
                                                                Short days where the nights still long
The sun will be rising back home
                                                                When you think of the things have done.
                                                                Don't matter how far I'm gone.
Living out of cases
                                                                I'm always feeling like home
Ain't packing up and taking off
Made a lot of changes
                                                              Don't forget where you belong, \overset{-}{\text{home}}
But not forgetting who I was
On the horizon
                                                              Don't forget where you belong, home
                                                                               Em D
          Em
Oh, well I know, I know, I know, I know,
                                                               If you ever feel alone, don't
The moon will be rising back home
                                                               You were never on your own
Chorus:
                                                               Never, never, never
                                     C
Don't forget where you belong, home
                                                              Don't forget where you belong, home
Don't forget where you belong, home
                                                              Don't forget where you belong, home
                 Em D
                                                                                Em D
If you ever feel alone, don't
                                                               If you ever feel alone, don't
You were never on your own
                                                               You were never on your own
And the proof is in this song
                                                              And the proof is in this song
                                                              G Em C
(G Em C)(x2)
Verse 2:
                                                                 Don't forget it, home
I've been away for ages \\
                                                              If you ever feel alone, don't
                 Em
But I've got everything I need
                                                              You were never on your own
I'm flicking through the pages
                                                              And the proof is in this song
                                                               (G Em C)
I've written in my memory
I feel like I'm dreaming
                                                              Never forget it
Oh, so I know, I know, I know, I know
                                                                  Em C
                                                              This song
That I'm never leaving
                                                              Don't forget it
No, I won't go
                                                              No one never forget it
Chorus:
                                                                 G
                                                               This song
                                                                     Em C
                      G
                            Em C
                                                               You were never
```
