

One Direction - Everything About You

Tom: C

You know I've always got your back girl
So let me be the one you can run into, run into, run in

I say this, cause it's a matter of fact girl, you just call my name

I'll be coming through, coming through, I'll get coming

On the other side of the world it don't matter,
I'll there in two, I'll there in two, I'll there in two

I still feel it everytime

It's just something I have to do
Now ask me why I want to

It's everything about you, you, you

Everything that you do, do do
From the way that we touch baby
To the way that you kiss on me

It's everything about you, you, you

The way you make it feel, new, new, new
Like every party is just us two

And there's nothing I could point to,
It's everything about you, you, you

Everything about you, you, you
It's everything that you do, do do

It's everything about you

Yes I like the way you smile with your eyes

Other guys see you but they realize that it's my, my loving

There's something about your laugh that it makes me want to have to

Every minute, it's like a last song

Let's just take it real slow

I still feel it everytime

It's just something I have to do
Now ask me why I want to

It's everything about you, you, you

Everything that you do, do do
From the way that we touch baby

To the way that you kiss on me

It's everything about you, you, you

The way you make it feel, new, new, new
Like every party is just us two

And there's nothing I could point to,
It's everything about you, you, you

Everything about you, you, you
It's everything that you do, do do

It's everything about you

And you have always been the only one I wanted

And I wanted you to know without you I can't face it
All we wanna have is fun

But they say that we're too young
Let them say that they want

It's everything about you, you, you

Everything that you do, do do
From the way that we touch baby

To the way that you kiss on me

It's everything about you, you, you

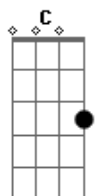

It's everything that you do, do do
Like every party is just us two

And there's nothing I could point to,
It's everything about you, you, you

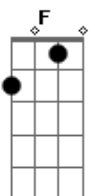

Everything about you, you, you
It's everything that you do, do do

It's everything about you
