            Dm
Baby you got me sick
I don't know what I did
               Dm
Need to take a break and figure it out, yeah
              Dm
Got your voice in my head
            Dm
Saying let's just be friends
                  Dm
Can't believe the words came out of your mouth, yeah
I'm trying to be ok
Im trying to be alright
But seeing you with him
Just don't feel right
And I'm like oww never thought it'd hurt so bad
Getting over you
And oww you're giving me a heart attack
Looking like you do
Cause you're all I ever wanted
Thought you would be the one that's
                 Dm
Oww giving me a heart attack getting over you
Baby now that you're gone
              Dm
I can't stand dumb love songs
Missing you is all I'm thinking about, yeah
           Dm
Everyone's telling me
I'm just too blind to see
How you messed me up I'm better off now, yeah
I'm trying to be ok
