

One Direction - If I Could Fly

```
Intro: 7x: F
                                                                Even though they can't always be seen
                                                                And pain gets hard
If I could fly
                                                                But now you're here and I don't feel a thing
I'd be going right back home to you
                                                                \mathsf{Dm}
I think I might
                                                                        Pay attention, I hope that you listen
Give up everything just ask me to
                                                                 'cause I let my guard down
                                                                Right now I'm completely defenceless
       Pay attention, I hope that you listen
'cause I let my guard down
                                                                Chorus:
                                                                                         Bb
                                                                For your eyes only
Right now I'm completely defenceless
Chorus:
                                                                Α7
                                                                                Dm

                                                          Dm
For your eyes only, I show you my heart
                                                                 it)
For when you're lonely, and forget who you are
                                                                I been going out of my mind (I feel it, I feel it)
                                                                                                                         Α7

Now you know me, for your eyes only
                                                                Hope that you don't run from me
