

One Direction - Loved You First

Tom: D

D
Girl, it should be me
A
Driving to your house
G
Knocking on your door
D A
And kissing you on the mouth

D
Holding on your hand
A
Dancing in the dark
G
Cause I was the only one
D A
Who loved you from the start

D A
But now when I see you with him it
G A
Tears my world apart

G (mute)
Because

D
Ive been waiting
G Em
All this time to finally say it
Em G
But now I see your hearts been taken
A G Em
And nothing could be worse
D
Baby, I loved you first.

D
Had my chances
G Em
Couldve been where he is standing
Em
Thats what hurts the most,
G
Girl, I came so close
A G Em
But now youll never know
D
Baby, I loved you first

D
Girl, it should be me
A
Calling on your phone
G
Saying youre the one
D A
And that Ill never let you go

D
I never understood
A
What love was really like, but
G
I felt it for the first time

Looking in your eyes

But now when I see you with him
