

One Direction - Temporary Fix

Tom: E

(com acordes na forma de Capotraste na 2ª casa Verso 1:

Saw your body language and I know how you're feeling,
you look like the kind of girl who's tired of speaking.
Standing with somebody but he doesn't know what you like,
you caught my attention, you were looking at me first.
Saw that I can teach you waking up in my t-shirt
If you're not into anything right now I can be your vice.

Refrão:

All you need to know is you can call me when you're lonely.
When you can't sleep I'll be your temporary fix.
You control me, even if it's just tonight.
You can call me when you feel like having good time,
I'll be your temporary fix, you can own me,
and we'll call this what you like, let me be your good night.

Verso 2:

The night is on your lips and I feel like I'm locked in,
There's a million eyes, I don't care if they're watching.
Your body is saying everything, I don't have to read your mind.
Feel you on my neck while I'm calling a taxi,

Climbing over me while I climb in the backseat.
Now we're taking off, now we're taking it off tonight.

Refrão:

All you need to know is you can call me when you're lonely.
When you can't sleep I'll be your temporary fix.
You control me, even if it's just tonight.
You can call me when you feel like having good time,
I'll be your temporary fix, you can own me,
and we'll call this what you like, let me be your good night.

Bridge:

We can moan in the darkness, let me touch you where your heart is.
And if you're feeling the weakness.
Well I told you baby that you can call me, I'll be your temporary fix.
You can call me.

Refrão:

You can call me when you're lonely.
When you can't sleep I'll be your temporary fix.
You control me, even if it's just tonight.
You can call me when you feel like having good time,
I'll be your temporary fix, you can own me,
and we'll call this what you like, let me be your good night.
