

## **One Direction - You And I**

```
Tom: C
                                                             There's always room for common ground
  (FG Am CF) 2x
                                                            I see what it's like
Verso I:
                                                            I see what it's like for day and night
I figured it out
                                                            Never together
                     n
                                                            'Cause they see things in a different light like us?
I figured it out from black and white
                                                                       Em D
Seconds and hours
                                                            Did we never try like
                                                            F G Am
Maybe they had to take some time
                                                            You and I
I know how it goes
                                                            We don't wanna be like them
I know how it goes from wrong and right
                                                            We can make it till the end
Silence and sound
                                                            Nothing can come between
Did they ever hold each other tight like
                                                            F G
                                                            You and I
                  D
Do they ever fight like us?
                                                                                      Em
                                                            Not even the Gods above can separate the two of us
Refrão:
                                                                             G Am
                                                             'Cause you and I
F G Am
You and I
                                                            We don't wanna be like them
We don't wanna be like them
                                                            We can make it till the end
                                                            Nothing could come between
We can make it till the end
Nothing can come between
F G Am
You and I
                                                            Not even the Gods above can separate the two of us
                          Em
                                                            No nothing can come between
Not even the Gods above can separate the two of us
No nothing can come between
                                                            You and I
F G Am C
You and I
                                                            Final:
 F G Am
Oh you and I
                                                             You and I
                                                               F G Am
                                                                           C F
Verso II:
                                                             I figured it out
                                                             Oh you and I
Saw the mistakes of up and down
                                                             We can make it if we try, you and mine
                                                              F G Am C F
Meet in the middle
```

## **Acordes**
