

# OneRepublic - Fingertips

tom:

**C**

We were running from the waves on the shallows  
**Am** Trying to keep ourselves alone and out of sight  
**C** All right, all right, all right  
**C** You were talking about the night when I cashed out  
**F** Traded glances as I stole your lovers light  
**F** All right, all right, all right  
**F** That's how I recall it and you and I

**C** I remember it, it was a night just like this  
**Am** One of those moments that just slip  
**G** But you just feel it from your heart to your fingertips, yeah  
**C** And I remember it, it was a late summer bliss  
**Am** One of those moments that just slip  
**G** But you feel it from your heart to your fingertips, yeah

( **C** **Am** **G** **F** )

**F** And I remember you, you were first on my list  
**G** One of those moments that just slip  
**Am** But you feel it from your heart to your fingertips, yeah  
**F** I remember us, you were a late summer bliss  
**Am** One of those moments that just slips  
**G** But you feel it from your heart to your fingertips, yeah

**C** We were drinking from the same old glasses  
**Am** That we borrowed from my roommate down the hall, hall, hall  
**F** Down the hall and you were like

**C** I remember it, it was a night just like this  
**Am** One of those moments that just slip  
**G** But you feel it from your heart to your fingertips, yeah  
**C** And I remember it, it was a late summer bliss  
**Am** One of those moments that just slip  
**G** But you feel it from your heart to your fingertips, yeah
