# OneRepublic - Rescue Me

Tom: B

m
Intro: Bm  A  D  G  A
       Bm  A  D  G  A

[Dedilhado Padrão]

[Refrão]

                    Bm
Would you rescue me

Would you get my back
                          A                    D
Would you take my call when I start to crack
                  G
Would you rescue me
                      A
Would you rescue me

                    Bm
Would you rescue me when I?m by myself
                      A
When I need your love
                  D
If I need your help
                  G
Would you rescue me

Would you rescue me

[Primeira Parte]

          Bm
We don?t talk much not anymore
          A                    D
Broken bottles and slamming doors
                  G
But we still care about each other
                      A
Say we care about each other

          Bm
I know life took us far away
                  A                    D
But I still dream about the good old days
                  G
When we took care of each other
                          A
We were living for each other

[Ponte]

      Bm   A   D          G              A
But I         start to wonder, wonder
    Bm   A   D            G              A
If I?m       slipping under, under

[Refrão]

                    Bm
Would you rescue me

Would you get my back
                          A                    D
Would you take my call when I start to crack
                  G
Would you rescue me
                      A
Would you rescue me

                    Bm
Would you rescue me when I?m by myself
                      A
When I need your love

                              D
If I need your help
                          G
Would you rescue me
                              A
Would you rescue me

Would you rescue me

                              Bm
Would you rescue me

Would you get my back
                          A                    D
Would you take my call when I start to crack
                  G
Would you rescue me
                      A
Would you rescue me

                    Bm
Would you rescue me when I?m by myself
                      A
When I need your love
                  D
If I need your help
                  G
Would you rescue me
                      A
Would you rescue me

[Segunda Parte]

                    Bm
Yeah I miss all the times we had
              A                    D
Can?t forget what you can?t get back
                      G
And you can?t find it in another
                              A
Man, time it ain?t your lover

                    Bm
I don?t care what you thought before
              A                    D
I?ll be there any time you call
                  G
Don?t you ever call another
                          A
No need to call another

[Ponte]

        Bm   A   D          G              A
But I         start to wonder, wonder
      Bm   A   D            G              A
If I?m       slipping under, under

[Refrão]

                    Bm
Would you rescue me

Would you get my back
                          A                    D
Would you take my call when I start to crack
                  G
Would you rescue me
                      A
Would you rescue me

                    Bm
Would you rescue me when I?m by myself
                      A
When I need your love
                  D
If I need your help
                  G

**Oferecimento Lojalele.com.br**

```
Would you rescue me                                      A                    D
Would you rescue me yeah         Would you take my call when I start to crack
                                                                    G
        Bm        A  D          Would you rescue me
Would you rescue me                                               A
        G  A                    Would you rescue me
Oh rescue me
        Bm        A  D                                         Bm
Would you rescue me             Would you rescue me when I?m by myself
        G  A                                               A
Oh rescue me                    When I need your love
                                                     D
                    Bm          If I need your help
Would you rescue me                                       G
                                Would you rescue me
Would you get my back           Would you rescue me
```
