

OneRepublic - Room For You

tom:

B (forma dos acordes no tom de C)

Afinação: Eb Ab Db Gb Bb Eb
G

Big love in a small house

Blue skies never run out

Don't you know that I always got room for you?

More time than we both need

Years pass and I won't leave

Honey, know that I always got room for you

Got room for you

I don't wanna know the future, don't need a crystal ball

I'm just chasing every bit of it down that hall

Just runnin' towards the light and see the world in bloom, oh, yeah

She don't wanna be just a moment of just one glance

She don't wanna be the only one in this dance

Yeah, all she needs is a little room

We've had good turn to bad

Days go from perfect to sad

Don't have the life we planned

It's not th? world we know

We got big love in a small hous?

Blue skies never run out

Don't you know that I always got room for you? (got room for you)

More time than we both need

Years pass and I won't leave

Honey, know that I always got room for you

F G Am

Got room for you

I got room, I got room for you

Oh, yeah

Everything I do, I do for you

Take your time, take your time then when the time comes back

She don't wanna trade the future for what she have

I don't wanna live it out any other way

And anything she says, she's not a liar (she's not a liar)

All the things I do, I can't deny 'em

And she was the first to turn my light on

And we may not have it all, ever have it all

But all I really know is all I know is

We got big love in a small hous?

Blue skies never run out

Don't you know that I always got room for you? (got room for you)

More time than we both need

Years pass and I won't leave

Honey, know that I always got room for you

Got room for you

I got room, I got room for you

Oh, yeah

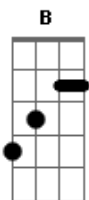

Everything I do, I do for you

We got big love in a small house

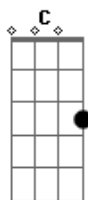

Blue skies never run out

Honey, know that I always got room for you
