

# Orthodox Celts - Save Me

Tom: C

(com acordes na forma de G )

Capostrate na 5ª casa

Intro: C D G G

Shapes disappear  
Erased by the darkened welcome of the night  
Behind the clouds  
The moon set sail across the flaming stars  
The night is so quiet  
I still wait your steps to hear and melt the snow  
Rage of the Wind  
Feeds my hunger while I'm dreamin' alone  
Save me girl  
Give me shelter in your arms  
Save me girl  
And blow away my harms  
Save me girl

Arise me from the dead tonight  
I'm burning down  
I saw your smile and lost myself in you  
But I don't mind  
Whole starry skies I found in your eyes  
I can't control  
...myself. I don't belong to me no more  
Since you allowed  
To see my reflection in the mirror I love  
Save me girl  
Give me shelter in your arms  
Save me girl  
And blow away my harms  
Save me girl  
Arise me from the dead tonight
