

Owen Temple - Lights Of Town

Tom: **E**

(com acordes na forma de **C**)
 Capotraste na 4ª casa
 Capo on 4th fret

C
 The red sun's going down, I'll be waiting up again

F
 Wondering where you are tonight

C
 Out with all your friends

C
 And I guess that you don't think about

The home you left behind
F **G** **C**
 But I'd give everything to get you out of my mind

C
 You thought a quiet ranch road

Was good enough back then
F **C**
 But now you need those city lights and bars to go sit in

C
 And I wonder where the old you goes

When all the bars close down
F
 'Cause I can just listen to the crickets sing

G **C**
 but you need the lights of town

F
 the lights of town are blinding you now

C
 you can't even see

G
 that part of you you left behind

C
 when you walked out on me

F
 but when those city lights go dim

C
 and you're left all alone

C **G** **C**
 I wonder if you could find your way back home

You forget about the moon in a bar full of neon lights
 You can't remember holding hands
 On chilly autumn nights
 And though it seems to you
 That the stars have lost their shine
 They're glowing bright as ever darling
 Past the city limits sign

Chorus

In the middle of the night I sometimes watch the road
 I see the headlights move on past
 And I shiver from the cold
 By now the doors are locked downtown
 And still no sign of you
 The lights of town have broke the heart
 That loved you once so true

Chorus

Acordes
