

## Palaye Royale - Hang On To Yourself

```
We got the love in automatic
                              tom:
Intro: Cm Ab
                                                                   Bang bang, now hear me shout it
[Primeira Parte]
                                                                   Shoot shoot, you better leave
                                                                   or hang on (hang on)
Diamond doll face
                                                                   Cause we got love's electric magic
Dreamer girl
                                                                   Bang bang, it?s automatic
With the messed up coke teeth
                                                                   Shoot shoot, you better leave or hang on
Poppies and pearls
                                                                   Hang on to yourself
Wearing in my new cold?sweat
                                                                   [Solo] Cm Eb Fm
Like?some viewed up?dead beat minor threat
                                                                          Gm Bb Cm
[Refrão]
                                                                   [Refrão]
           Cm
                                                                               Cm
We got the?love in automatic
                                                                   We got the love in automatic
Bang bang, now hear me shout it
                                                                   Bang bang, now hear me shout it
Shoot shoot, you better leave
                                                                   Shoot shoot, you better leave
or hang on (hang on)
                                                                   or hang on (hang on, now)
Cause we got love's electric magic
                                                                   Cause we got love's electric magic
Bang bang it?s automatic
                                                                   Bang bang, it?s automatic
Shoot shoot you better leave
                                                                   Shoot shoot, you better leave
or hang on
                                                                   or hang on
Hang on to yourself
                                                                   Hang on to yourself
( Cm Eb Fm )
                                                                   ( Cm Eb Fm )
     Gm
Hang on to yourself
                                                                   Hang on to yourself
( Cm Eb Fm )
                                                                   ( Cm Eb Fm )
     Gm
                                                                        \mathsf{Gm}
Hang on to yourself
                                                                   Hang on to yourself
[Segunda Parte]
                                                                   [Final]
Friday black out guaranteed
                                                                   (You got to hold
Full of cocaine champagne
                                                                   You got to hold
Enter the sleaze
                                                                   You got to hold)
Passions black tar
                                                                   Hang on to yourself
Silver spoon
                                                                   (You got to hold
On a downer baby
                                                                   You got to hold
Fly to the moon
                                                                   You got to, you got to)
[Refrão]
                                                                   [Final] Gm Bb Cm
