Tom: **E**

Cm
You got two black eyes from loving too hard
A
And a black car that matches your blackest soul
E
I wouldn't change ya, oh oh
Wouldn't ever try to make you leave, no
Cm
The neon coast was your sign
A
And the Midwest wind with Pisces rising
E
Wouldn't change ya, oh oh
Wouldn't ever try to make you leave, no

B
Static palms melt your vibe
A
Midnight whisperings

Cm
The black magic of Mulholland Drive
A
Swimming pools under desert skies
E
Drinking white wine in the blushing light
Just another **LA** devotee
Cm
Sunsets on the evil eye
A
Invisible to the Hollywood shrine
E
Always on the hunt for a little more time
Just another **LA** devotee

Cm
Just another
Just another, oh oh

Just another
Just another, oh oh

Just another
Just another, oh oh
Just another **LA** devotee

Cm
You got bleached out eyes from the valley sand
A
And the black tar palms keep weeping your name
E
I couldn't change ya, oh oh
Couldn't ever try to make you see, no
Cm
The high rise lights read your rights
A
And a downtown storm with Aries rising
E
Couldn't change ya, oh oh

Couldn't ever try to make you see, no
