Intro: Gm F Gm F

[Primeira Parte]

Honeybee

Honey, I can hear the gossip buzzin' 'round the hive

Ecstasy

Love it up until the point you sting me and I die

You and me don't deserve each other

We ain't no star-crossed lovers, we just get carried away

[Pré-Refrão]

Oh shit, you're kissin' my neck, kissin' my chest

Now I remember why we fell in love

Hot smoke, feels like we just met, lips I couldn't kick

Honey, honey, you're my favorite drug

[Refrão]

Keep your disco, gimme me T. Rex

Makeup sex in the middle of a breakup

Pass me your last cigarette

Makeup sex in the middle of a breakup

(Gm F Gm F)

Destiny

I hate those words like destiny, forever and all time

Guarantee

Guaranteed we live forever, least until tonight

You and me ain't no Bonnie and Clyde

Although we tried and tried, we gave ourselves away (Ahhh)
