

Paper Twins - Something That Was Changing Your Mind

tom:

Lovely, you want me to be

Tell me

What do you see

Staring at the pictures now I wait for them to show me

Something that was changing your mind

I understood the words you said but never knew the meaning

Keep slipping through my fingers each time

Staring at the pictures now I know they try to show me

I can not see but God knows I try

Believer of the mysteries I try to find a way not to cry

Drifting, drifting away

Need you

Need you with me

Staring at the wall I know you really loved that colour

We picked it out over the phone

Remember what you said but I could n?ver tell the m?aning

I try to see what I have been shown

Staring at the pictures now I know they try to show me

I can not see but God knows I try

Believer of the mysteries I try to find a way not to cry

(Em A Gbm B7)

Girl I'm slowing down inside now

There's nowhere left to go

I used have you by my side but

There's no way I would know

Girl I'm slowing down inside now

I thought that we had time

Please wake me from this dream cause

I am about to lose my mind

Staring at the wall I know you really loved that colour

We picked it out over the phone

Remember what you said but I could never tell the meaning

I try to see what I have been shown

Staring at the pictures now I know they try to show me

I can not see but God knows I try

Believer of the mysteries I try to find a way not to cry
