

PartyNextDoor - Come And See Me

Tom: G

[Verse 1]

Doesn't make G sense now

Shit just got real, things are getting F intense now

I hear you talkin' 'bout we a lot, oh, you speak G French now?

Giving me the signs so I gotta take a F hint now

I hit you up like "Do you wanna hang G right now?"

On the East Side and you know I'm with the gang F right now

You say do I own a watch, do I know what time it is G right now

It's after 2AM and that's asking a lot of you F right now

[Chorus]

All she talkin' bout is G come and see me for once
Come and see me for once

You don't ever come to F me, you don't ever come to me

All she ever say is G come and see me for once
Come and see me for once

You don't ever come to F me, you don't ever come to me

G

[Verse 2]

I been up for two whole days thinking what I did to keep you F
going

Thumbing through the voicemails that you left me telling me G
where I went wrong

I'll admit I'm sorry when I feel I'm truly F sorry

Things change, people change, feelings change too

Never thought the circumstances woulda changed you G

You said you never traded no, yeah you said that F

And I believed you when they told me don't, yeah thought you G
meant that

But either way you're still invited and I can't even lie to F
you

[Chorus]

Swear these days all you say is G come and see me for once
Come and see me for once

You don't ever come to F me, you don't ever come to me

All she hit me with is G come and see me for once
Come and see me for once

You don't ever come to F me, you don't ever come to me
