

Passafire - Epiphany

Tom: G

^G
In a way, i feel like a cloud passing over a mountain

I'm about to leave all my worries behind ^G

On top of this mountain mountain ^C

And i lay my head into the snow ^{D Em C}

Watching the mountain stream flow ^{D Em C}

^G
Cuts through the rock like a diamond
Gravity pulls down the work of a cloud ^C

Unwinding days of preparation ^G

Raise a generation to understand

Faith that lies ahead

For a cloud with a peak in it's path ^C

You can never look back

Once it's all gone ^G

And say so long

To all that's lost ^C

What's lost

^{D Em C}
I lay my mind on the line

^{D Em C}
Like the worker in the dead of night

^G
Push my conscience to the edge of the table

If i'm able to suggest ^{Em}

Let me hold the cable and ^G

Work my way back down ^C

^{Em G C}
From this place i can see the town below

Wonder if ^{Em}

^{G C}
Anybody knows that it's about to snow

The whole night through ^{G C}

^G
In a way, i feel like a cloud passing over a mountain ^C

I'm about to leave all my worries behind ^G

On top of this mountain mountain ^C
