

# Paul Fox Cowboy - Farewell, Rodeo

tom:

Intro: Bb Eb Bb

I ride my horse, for the last time  
 The doc said I'm done, I can no longer ride  
 My bones are broken, my muscles are worn  
 I can no longer ride, it's time to say goodbye

Farewell, rodeo, I'm walkin' away  
 My body's busted, it's time to stay  
 I'll leave the rodeo dust behind  
 And find a new path, without the pain and the grind

I remember the nights, under shinin' stars  
 I rode bulls and horses, with adrenaline in my heart  
 But now, I'm tired, my body's broke

I need to find a new purpose, before it's too late to cope

Farewell, rodeo, I'm walkin' away  
 My body's busted, it's time to stay  
 I'll leave the rodeo dust behind  
 And find a new path, without the pain and the grind
