                     G

            C            F              Am           G
 What I?m looking at is a young boy tryna live this new life
C     F             Am            G
 Finding out the way you like to style your new hair

C             F
Face your fears
    Am               G
To win the battle we call teenage, yeah

C             F
I know it?s hard
        Am              G
But you have many friends around you

C      F             Am
Every rock I have to jump
                         G
It?s a crazy road, would you think ??That?s okay???
C      F                    Am
Every mountain I have to climb
                     G
Can show me who I meant to be

C      F          Am
Na na na na, oh oh
        G
Na na na na, oh oh
C      F          Am
Na na na na, oh oh
        G
Na na na na, oh oh

C            F            Am          G
What I?m looking at is an old boy tryna get a girlfriend
C     F          Am            F
But he found many worlds he can disappear

C             F
Face your fears
    Am               G
To win the battle we call teenage, yeah
