## **Pearl Jam - Arms Aloft**

```
Sometimes there's no star shining
Scouting the edge of the universe
Sometimes you can't see a horizon
Between the ocean and the earth
And just when you were thinking about slinkin' down
I'm gonna pull you up I'm gonna pull ya round
May I remind you of that scene?
The spirit is our gasoline
May I remind you of that scene?
We were arms aloft in Aberdeen
May I remind you of that scene?
Let a million mirror balls beam
May I remind you of that scene?
And you say 'living ain't nothing but hassles'
In a manilla envelope rain
And driving coal all-night to Newcastle
It's getting to be a repetitive strain
And just when you thought you're going down the drain
May I remind you of that scene?
```

## **Acordes**
