

Pearl Jam - Come Back

Tom: F

Intro: 2x: F C Bb

If I keep holding out will the light shine through under this
Broken roof it's only rain that I feel

I've been wishing out the day

Oh oh oh come back

I have been planning out all that I'd say to you

Since you slipped away, know that I still remain true

I've been wishing out the day

Please say that if you had to go now

I wouldn't have lost you another way

From wherever you are

Ooh oh oh come back

And these days they linger on

And in the night I've been waiting for

The real possibility that I may meet you in my dreams

Then I go to sleep

If I don't fall apart will my memory stay clear

So you had to go and I had to remain here

But the strangest thing today

So far away and yet you feel so close

And I'm not gonna question any other way

There must be an open door for you to come back

Verse:

And the days they linger on

And every night well I'm waiting for

The real possibility that I may meet you in my dreams

Sometimes you're there and you're talking back to me

Come the morning I could swear that you're next to me and it's OK

Solo/Outro:

It's OK it's OK
