

Pearl Jam - The End

Tom: **Gb**

Gb **Db**
What were all those dream we shared
Ebm **Gb**
Those many year ago
Gb **Db**
What were all those plans we made
Ebm **Gb**
Now left beside the road
B **Gb**
Behind us in the road

Gb **Db**
More than friends I always pledged
Ebm **Gb**
Cause friends they come and go
Gb **Db**
People change as does everything
Ebm **Gb**
I wanted to grow old
B **Gb**
Just want to grow old

Gb **B** **Gb**
slide on next to me
B **Ab**
I'm just a human being
B **Ebm**
I will take the blame
Db
But just the same
B
This is not me
You see
Believe

Gb
I' m better then this
B **Gb**
Don't leave me so cold
B **Ab**
Or buried beneath the stones
B **Ebm**
I just want to old on
Db **B**

And know I'm worth your love
Enough
I don't think

There's such a thing **Gb**

Gb **Db**
It's my fault, Now I been caught
Ebm **Gb**
A sickness in my bones
Gb **Db**
How it pains to leave you here
Ebm **Gb**
With the kids on your own
B **Gb**
Just don't let me go

Gb **B** **Gb**
Help me see myself
B **Ab**
'Cause I can no longer tell
B **Ebm**
Looking out from the inside of
Db **B**
The bottom of a well
It's hell
I yell

Gb
But no one hears before
B **Gb**
I disappear
B **Ab**
Whisper in my ear
B **Ebm**
Give me something to echo
Db **B**
In my unknown futures ear

My dear
The End
Comes near
I'm here
Gb
But not much longer

Acordes
