

Pearl Jam - The End

```
Tom: Gb
                  Db
What were all those dream we shared
Ebm Gb
Those many year ago
What were all those plans we made
             Gb
Now left beside the road
Behind us in the road
                 Dh
More than friends I always pledged
 Ebm
Cause friends they come and go
            Db
People change as does everything
I wanted to grow old
Just want to grow old
slide on next to me
  В
          Ab
I'm just a human being
          Ebm
I will take the blame
      Db
But just the same
This is not me
You see
Believe
I' m better then this
  B Gb
Don't leave me so cold
   В
Or buried beneath the stones
      Ebm
I just want to old on
       Db
```

```
And know I'm worth your love
Enough
I don't think
There's such a thing
It's my fault, Now I been caught
Ebm Gb
A sickness in my bones
Gb Db
How it pains to leave you here
 Ebm Gb
With the kids on your own
В
Just don't let me go
Gb B
Help me see myself
   В
'Cause I can no longer tell
B Ebm
Looking out from the inside of Db B
The bottom of a well
It's hell
I yell
But no one hears before
B Gb
I disappear
 В
Whisper in my ear
               Ebm
Give me something to echo
Db
In my unknown futures ear
My dear
The End
Comes near
I'm here
But not much longer
```
