

Peter Frampton - Do You Feel Like I Do

"Do you feel like I (we) do" - Live

Midi File: ??? (I have no idea where you can find one)

This is very riff driven rock, so I will break the song up into parts just in case you are interested in a certain part.

Riff One: This part is mostly played by guitar, but it sounds no different on a bass. (Note that the 10's and 12's are 10 and 12 fret's, not 1's, 0's and 2's.

```

-----|
-10----12-10-----|
-12-----12-10-8----10-8-----8----10-8-----|
-----10-----10-8----10-----10-8-10-8-5-8-|
    
```

Riff Two: This is the main riff, when Frampton is singing.

```

-----|
-----22-22--22-22-----|
--00--00-00-00-00-----|
-----|
    
```

Riff Three: This is the riff played when Frampton does all the talkbox tricks with the guitar.

```

-----|
-0----3-----0-----0-----|
-----3-----0-3-----|
-----|
    
```

There you go...enjoy! (by the way, tuning is regular, i.e. EADG)
