

Phillip Phillips - Trigger

Tom: G
Intro: 2x: Em C Am

Em C
I heard the words come out of your mouth again
Am
So quietly you said
Em C
I need someone to hold my heart again
Am
Like it felt when I was just a kid
Em C
Will you take me far away
Am
From this fear that pulls me near?
Em
Will you take it out?
C Am
What's inside of my mind, what's screaming out
Em
Inside your hand it holds the question to it all
C Am
You start to pull the trigger, you start to pull the trigger
Em
Inside your mind it goes where no one really knows
C Am
You start to pull the trigger, you start to pull the trigger
(Em C Am)

Verso:

Em C
I saw the tears roll down from your eyes again
Am
So softly they fell
Em C
I reached to you to wipe them off your chin
Am
But you stopped me and said

Em
Please just leave me be
C Am
I feel as though no one knows what goes on inside of me
Em C
Then I turned to see it was too late to give you love
Am
But it was too late to give you up
