Phillip Phillips - We've Got Tonight
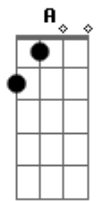

```
Tom: A
Intro: A E D E (2x)

          A    D
I know it's late
                  A
I know you're weary
          A  D                   A  E
I know your plans don't include me

            A   D
Still here we are
                A
Both of us lonely
          A     D               A  E
Longing for shelter from all that we see

           A      D
Why should we worry?
             A
No one will care, girl
            A       D       A  E
Look at the stars now, so far away

         A    D
We've got tonight
         A
Who needs tomorrow?
           A       D             A
We've got tonight, babe, why don't you stay?

          A   D
Deep in my soul
             A
I've been so lonely
         A  D             A  E
All of my hopes now so fading away

            A   D
I've longed for love
              A
Like everyone else does
```
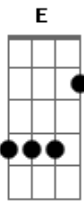

```
                   A       D       A  E
I know I'll keep searching after today

            A      D
So there it is, girl
                A
We've got it all now
              A       D
And here we are, babe
            A   E
What do you say?

         A    D
We've got tonight
         A
Who needs tomorrow?
           A      D             A  E
We've got tonight, babe, why don't we stay?

G2                            A
I know it's late and I know you're weary
G2                      A
I know your plans don't include me
          D2
Still here we are
            A            D2   A
Both of us lonely , both of us lonely
         A    D
We've got tonight
         A
Who needs tomorrow?
            A   D
Let's make it last
            A   E
Let's find a way

           A   D           A
Turn out the light, come take my hand now
           A       D       A   E
We've got tonight, babe, why don't we stay?
           A       D       A   D A
We've got tonight, babe, why don't we stay?
```
