

## **PillowMusic - Microplastics**

tom:

```
Dm
Intro: Dm C
Those plastics come from everywhere
Even when you least expect
When you wash your clothes
The nylon tears apart into a share
Tires bouncing in the road
The microplastics erode
City dust from the things that we use
We really have no excuse
Microplastics
They are the end of the world
Debris in the roads
When they're marking it loads
Just like paint from the boats
We don't like when it corrodes
```

## **Acordes**

```
(Instrumental) G C Am C
Don't worry
You are pretty
          Am
You don't need that spray
It leaves all filthy
I just fear a little bit
If they spill like some milk
The small and ingrate
Pellets that we so much hate
[Solo]
Dm
{\tt Microplastics}
They are the end of the world
Microplastics
They are the end of the world
It's not a 20 that will change this planet
{\color{red}\mathsf{C}} We get what we plant, so it's time to change this
We have to do something
(INSTRUMENTAL) Dm C (repeat 3x)
```
