Pink - All I Know So Far

```
                              tom:
                     E

             [Primeira Parte]

E
   Haven't always been this way

I wasn't born a renegade

I felt alone, still feel afraid

I stumbled through it anyway

[Pré-Refrão]

    B
I wish someone would have told me
        A                   E
That this life is ours to choose
            B
No one's handing you the keys or
A                     E
A book with all the rules
       A               B
The little that I know
            Dbm
I'll tell to you
          B
When they dress

You up in lies

And you're left
  B
Naked with the truth

[Refrão]

                   E
You threw your head back

And you spit in the wind
         B
Let the walls crack

'Cause it lets the light in
          Dbm
Let 'em drag you through hell, they
                          A
Can't tell you to change who you are

That's all I know so far

                 E
And when the storm's out

You run in the rain
           B
Put your sword down

Dive right into the pain
        Dbm
Stay unfiltered and loud

You'll be proud of that
                  A
Skin full of scars
                  B
That's all I know so far

That's all I know so far

[Segunda Parte]

      E
So you might give yourself away, yeah

And pay full price for each mistake
```

```
But when the candy-coating hides the razor blade

You can cut yourself loose and use that rage

[Pré-Refrão]

           B
I wish someone would have told me
          A                   E
That this darkness comes and goes
   B
People will pretend but baby
A           E
Girl, nobody knows
      A              B                 Dbm
And even I can't teach you how to fly
            B
But I can show you have to live

Like your life is on the line

[Refrão]

                   E
You threw your head back

And you spit in the wind
         B
Let the walls crack

'Cause it lets the light in
          Dbm
Let 'em drag you through hell, they
                          A
Can't tell you to change who you are

That's all I know so far

                 E
And when the storm's out

You run in the rain
         B
Put your sword down

Dive right into the pain
        Dbm
Stay unfiltered and loud

You'll be proud of that
                A
Skin full of scars
                        E
That's all I know so far

[Pós-Refrão]

That's all I know
                  B       Dbm
That's all I know so far

That's all I know
                  A     E
That's all I know so far
That's all I know
                  B       Dbm
That's all I know so far

That's all I know
                  A      Dbm
That's all I know so far

[Ponte]

Dbm             A
I will be with you 'til
                E     B
The world blows up, yes
Dbm               A
Up and down and through 'til
```

```
                E     B
The world blows up, yeah
          Dbm                      A
When it's right or it's all fucked up '
                        E
Til the world blows up, '
                      B
Til the world blows up
     Dbm          A
And we will be enough and
    E                B
Until the world blows up

[Refrão]

                  E
You threw your head back

And you spit in the wind
        B
Let the walls crack

'Cause it lets the light in
           Dbm
Let 'em drag you through hell, they
                        A
Can't tell you to change who you are

That's all I know so far
                  E
And when the storm's out

You run in the rain
          B
```
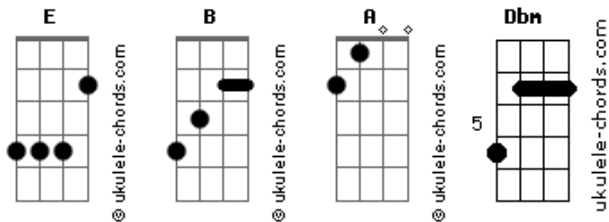

```
Put your sword down

Dive right into the pain
          Dbm
Stay unfiltered and loud

You'll be proud of that
                      A
Skin full of scars
                              E
That's all I know so far

[Pós-Refrão]

That's all I know
                    B        Dbm
That's all I know so far

That's all I know
                    A        E
That's all I know so far
That's all I know
                    B        Dbm
That's all I know so far

That's all I know
                    A        Dbm
That's all I know so far

[Final]

Dbm                A
I will be with you '
                              E
Til the world blows up
```
