

Pixie Lott - Cant Make This Over

Tom: **B**

B **E** **Dbm** **Gb** **B**
HMMMM hhhhhmmmm hmmmm hmmm

I only miss you when you call **E**
Gb **E** **B**
So please don't pick up the phone again
In the confusion of it all **E**
Gb
Give me time
While my mind's unravelling **E**

I just can't escape this feeling **Gb**
Abm
But it's taking over me **B**
All over me **E** **Gb**
I know now I can't try to hide it **Dbm** **Db**
It's clear to me that I can't fight it
B **E**
You wanna take it back to where it was **Dbm**

But I can't make this over **Gb**
I can't make this over **B** **Dbm**
You want another chance to try again
But I can't make this over **Abm**

I can't make this over
B
Now

Don't say I don't miss the way we were
I thought nothing could tear us apart
Why do you have to sabotage our love
And leave me with a broken heart?

You think, that I won't forgive you
It's far beyond a breakup
Kiss and make up

I know now that it's not about you
I know that I can't live without you

You wanna take it back to where it was
But I can't make this over
I can't make this over
You want another chance to try again
But I can't make this over
I can't make this over

B **E**
And now I'll follow my heart **Abm** **Gb**
And now you're out of my life **E**
And now?

You wanna take it back to where it was
But I can't make this over
I can't make this over
You want another chance to try again
But I can't make this over
I can't make this over [x2]

Now?
